Depending on the absorption of materials.

- in the recovery of old wood  
1lt / 6 - 8 m<sup>2</sup>;
- as stain remover  
1lt / 12 - 15 m<sup>2</sup>.

## TECHNICAL DATA

Physical state: clear colorless liquid  
Specific weight (20 ° C): 1,035  
pH (20 ° C): 1-2  
Flame point (ASTM):  
not inflammable  
Solubility in water: total.

## STORAGE

Keep the product well closed at temperatures between 0 ° C and + 30 ° C. The product thus conserved has a useful life of 2 years.

## DESCRIPTION

Solution with mixed acid / solvent function with low foaming surfactants

## FIELDS OF APPLICATION

*For the extraordinary washing and renewal of wooden surfaces such as floors, coverings, garden furniture, door and window frames, etc.*

## CHARACTERISTICS

### SMACCHIO LEGNO:

- removes aging patinas, algae and mold from woods exposed outside, unprotected or with protective impregnating finishes to be restored;
- renews the natural aspect of aged wood by preparing it for the application of a new protection (paints, oils, various impregnating agents);
- can also be used as a specific tannin stain remover on wooden surfaces, both raw and treated (oiled or painted)
- avoids to sand surfaces.

## INSTRUCTIONS FOR USE

- Shake it before using;
- remove previously varnishes, oils, waxes from the wood;
- apply the product with a paint brush, cloth, sponge or spray;
- keep the surface wet for 20 - 30 minutes, repeat the application if necessary;
- rub the surfaces with medium hardness pads or nylon brushes;
- rinse well with water and let the surface dry;
- repeat the application if necessary.

Before proceeding with the application of any new protection, it is essential to wait for favorable environmental conditions for optimal drying of the wood.

SMACCHIO LEGNO isn't a paint remover or a wax remover and doesn't remove paint layers, impregnating agents, oils and waxes. Perform preliminary tests on a small area to check the effectiveness of the product..

## LIMITATIONS

Always carry out a test before use. Do not apply on surfaces that are too hot. Protect vegetation from contact with the product. Protect your eyes and skin from contact with appropriate clothing.

## NOTES

Our indications are based on current research knowledge and are intended to give the best indications to the buyer-user. However, these indications require preliminary examinations and tests on the fields of use, the types of materials present and the various application conditions. The user decides independently on the suitability and on the field of use. MARBECC Srl assumes no responsibility for the incorrect use of its products. **Rev2-Ver270218**
