

# UNIPUL

UNIVERSAL SANITIZING CONCENTRATED  
DETERGENT FOR HARD SURFACES

## PACKAGING

- 1 Lt Plastic bottle - box 6 pc;
- 5 Lt Plastic can - box 4 pc;
- 10 Lt Plastic can.

## YIELD

Depending on the concentration of use.

## TECHNICAL DATA

Physical state: clear liquid.  
Color: pink.  
Specific weight (g / cm<sup>3</sup>): 1.004  
pH (20 °C) of the pure product: 10-11  
pH (20 °C) of the product at 1% in H<sub>2</sub>O: 7-8  
Flame point (ASTM): not inflammable.

## STORAGE

Keep the product well closed at temperatures between 0 °C and + 30 °C. The product thus conserved has a useful life of 2 years.

## DESCRIPTION

Concentrated detergent solution based on water, glycols, alcohols, amines, dispersants, sequestrants, non-ionic surfactants.

## FIELDS OF APPLICATION

**For the extraordinary and ordinary cleaning of all hard surfaces** (cotto, stone, cement, ceramic materials, wood, metal, glass and synthetic surfaces).

## CHARACTERISTICS

Concentrated detergent for multifunctional use based on its concentration in water for:

- **remove old blackened and deteriorated surface layers of wax on already treated surfaces;**
- **an intensive degreasing cleaning on all hard surfaces;**
- **an ordinary cleaning of all surfaces, which does not deteriorate the basic treatment and the material.**

UNIPUL is an effective product even at low concentrations of use, has a low foaming, does not leave streaks after use and leaves a pleasant scent in the environment.

## INSTRUCTIONS FOR USE

The concentration of use depends on the kind of dirt to be removed. Dosages:

- **Pure or diluted 1 part of UNIPUL in 1 part of water:** to perform extraordinary deep cleaning washes on old wax treatments blackened by the accumulation of dirt and to remove excess maintenance wax, without completely removing the background treatment. Spread **UNIPUL** on the floor, leave acting for a few minutes and then rub the surface with medium hard pads. Remove the residue and rinse with water. Then apply a coat of anti-dirt and anti-wear finish of **IDROFIN**.
- **Diluted 1 part of UNIPUL in 3 - 5 parts of water:** for washing where an energetic degreasing action is required on very dirty surfaces: car engines, surfaces and stoves, mechanical parts, traces of felt-tip pens, wooden floors, etc.
- **Diluted 30 - 40 cc of UNIPUL in 1 Lt of water:** for normal dirt in periodic cleaning of untreated hard surfaces.
- **Diluted 8-10 cc of UNIPUL in 1 Lt of water:** for the daily cleaning of treated (and not) floor surfaces, cotto, stone, ceramic materials, klinker, wood, washable walls, plastic surfaces, lacquered and painted surfaces (tables, furniture, fixtures, car interiors, linoleum, sanitary ware, glasses).

## LIMITATIONS

None.

## NOTES

Our indications are based on current research knowledge and are intended to give the best indications to the buyer-user. However, these indications require preliminary examinations and tests on the fields of use, the types of materials present and the various application conditions. The user decides independently on the suitability and on the field of use. **MARBEK Srl** assumes no responsibility for the incorrect use of its products. **Rev5-Ver18**

## WARNING: CAUTION

**Hazard statements:** H319 Causes serious eye irritation. – H315 Causes skin irritation.

**Precautionary statements:** P280 Wear protective gloves/protective clothing/eye protection/face protection.

-P302+P352 IF ON SKIN: Wash with plenty of soap and water.

-P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. - P332+P313 If skin irritation occurs: Get medical advice/attention. - P337+P313 If eye irritation persists: Get medical advice/attention.

**Contains:** non ionic surfactants <5%,perfume.
