

CREAM INOX

CONCENTRATED CREAM SPECIFIC
FOR STAINLESS STEEL AND ALUMINUM

DESCRIPTION

Cream based on surfactants, amines and inert powder. It does not contain acids.

FIELDS OF APPLICATION

Specific cream for the extraordinary cleaning, the degreasing and the polish of surfaces in stainless steel and aluminum matted and damaged by use.

CHARACTERISTICS

CREAM INOX:

- is a specific cream for the cleaning of the surfaces of the house in stainless steel and aluminum (electrical household appliance, steel floors and kitchens, etc.).
- cleans, degreases and polishes the surfaces opacified by use, bringing the material back to its original appearance;
- contains no acids or alkaline substances;
- does not leave stains after use;
- does not exhale harmful fumes.

INSTRUCTIONS FOR USE

shake well before use. Pour a small amount of product onto a damp sponge. Rub the surface to be polished until a dark patina is formed. Rinse with water.

LIMITATIONS

None.

PACKAGING

250 gr PE bottle - box 6 pcs

YIELD

according to the concentration of use

TECHNICAL DATA

Physical state: white fluid cream
Specific weight (g / cm³): 1.38
pH: 7
Flame point (ASTM): non-flammable
Solubility in water: dispersible.

STORAGE

Keep the product well closed at temperatures between 0 ° C and + 30 ° C. The product thus conserved has a useful life of 2 years.

NOTES

Our indications are based on current research knowledge and are intended to give the best indications to the buyer-user. However, these indications require preliminary examinations and tests on the fields of use, the types of materials present and the various application conditions. The user decides independently on the suitability and on the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products. **Rev4-Ver081018**

WARNING: CAUTION
