

ANTISPORCO

PROTECTIVE ANTI-STAIN
FOR PORCELAIN TILES FLOORS

DESCRIPTION

water-based micro-emulsion of dirt-repellent protective agents.

FIELDS OF APPLICATION

invisible and protective anti-stain, anti-dirt product specific for porcelain tiles floors and coverings. It drastically reduces the absorption of dirt, facilitating and speeding up ordinary cleaning.

CHARACTERISTICS

ANTISPORCO is a water-based anti-stain protective product specific for porcelain tiles floors and walls.

ANTISPORCO:

- forms an **invisible anti-stain chemical barrier on the surface, which does not create films and does not alter the appearance and the color tone of the material;**
- **protects porcelain tiles and leaks from daily dirt;**
- **facilitates and speeds up ordinary cleaning;**
- **reduces the use of detergents.**

INSTRUCTIONS FOR USE

shake well before use. Apply **ANTISPORCO** only on clean and dry surfaces. Spray small amounts of product on the surface and spread evenly with a soft cloth. Any excess product after drying should be removed by rubbing a damp **ANTISPORCO** cloth on the surface.

The product must be reapplied periodically, even only in limited areas of the flooring, depending on the washing and trampling of the surface (generally 6-12 months).
